

# City of Loma Linda Official Report

Floyd Petersen, Mayor  
Stan Brauer, Mayor pro tempore  
Robert Christman, Councilmember  
Robert Ziprick, Councilmember  
Charles Umeda, Councilmember

COUNCIL AGENDA: February 14, 2006

TO: City Council

VIA: Dennis R. Halloway, City Manager

FROM: T. Jarb Thaipejr, Public Works Director/City Engineer

SUBJECT: Remove One Parking Space at Campus Street at Barton Frontage Road and Remove the Restricted Parking on the north side of Barton Frontage Road with the exception of Two 20-Minute Parking Spaces

## RECOMMENDATION

It is recommended that the City Council:

- 1) Remove the 20-minute parking space on the west side of Campus St. at 11290 Campus St.;
- 2) Replace two parking spaces on the north side of Barton Frontage Road at Campus Street from two-hour parking zone to 20-minute parking zone; and
- 3) Remove the remaining two-hour parking zone spaces on the north side of Barton Frontage Road to the Residential Permit Parking Zone.

## BACKGROUND

At the September 1, and November 3, 2005, Traffic Advisory Committee Meeting, the Committee discussed the two-hour parking zone along Barton Frontage Road at Campus St. and the single 20-minute parking space on Campus Street just south of Barton Frontage Road on the west side.

Currently, there is single parking space designated 20-minute parking in front of the Loma Linda University Medical Center, Clinical Engineering Building, at 11290 Campus St. This parking space was regularly used during the operation of the mortuary, previous occupant. By removing this parking space, it will allow clearance to vehicular traffic traveling northbound on Campus turning west onto Barton Rd. As an alternative, the Committee recommended designated two parking spaces on the north side of Barton Frontage Road at Campus St. to be 20-minute parking zones and to remove the two-hour parking restriction on the remaining parking zone on Barton Frontage Road up to the Residential Parking Permit Zone at San Juan St.

Public Works and Fire Department staff did not have any objections.

## **ANALYSIS**

Designating two 20-minutes spaces will allow for visitors to the facility and provide parking for the employees of the Loma Linda University Medical Center Clinical Engineers.

## **ENVIRONMENTAL**

None.

## **FINANCIAL IMPACT**

Minor costs to remove existing street signs.
